Submission Note

If a parameter row does not contain any values for the Sample nor Effluent Trading, then none of the following fields will be submitted for that row: Units, Number of Excursions, Frequency of Analysis, and Sample Type.

Edit Check Errors

No errors.

TSS and select SVOC results reported in the attached file MA0003425_Lab(1)_2022_03 were analyzed outside of hold time by the laboratory; consequently these results are not included for the March submission, and additional samples were collected. Other analyses reported in this lab report were no affected by this error and are included in the March DMR submission. For SVOC results reported in original and resampling lab report, the highest value is reported. Outfall 001 data consists of data collected at Outfall 002, as a commingled discharge from Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling. The data is representative of the discharge from Outfall 001 Outfall 002 and Outfall 003 did not occur at the time of the sampling.
